

The island promises the most diverse marine life with visibility up to 40 metres. Many species of rays flutter around like blue spotted ray and marbled sting ray amongst large schools of fish.

Besides that muck diving is excellent with the quiet existence of imperial shrimps, jaw fish ribbon eels, seahorses, pink-eyed gobbles and the jaw-dropping blue ringed octopus, amidst nudibranch of all sorts

Tour Code : KTT 16  
 Tour Duration : 2D 1N

**Tour Itinerary**
